Phoenix District Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of the Phoenix District Advisory Council meeting.

DATE: December 7, 8, 1989, 8 a.m.

ADDRESS: 2015 West Deer Valley Road, Phoenix, Arizona 85027.

SUMMARY: The Phoenix District Advisory Council of the Bureau of Land Management meets December 7-8, 1989. A tour of the Kingman Resource Area will occur on December 7. The formal meeting will be held at the Kingman Resource Area office, 2475 Beverly

public lands within the Phoenix District for a period of more than 24 hours without written permission of the authorized officer.

These restrictions apply year round on all public lands used for camping or occupancy administered by the BLM, Phoenix District, Arizona, unless specifically designated. Camping is defined as the erection or use of a tent or structure of natural or synthetic material; or preparing a sleeping bag or other bedding material for use; or mooring of a vessel for the apparent use of overnight occupancy. Occupancy is defined as the taking or holding possession of a camp or residence.

EFFECTIVE DATE: November 8, 1989.

FOR FURTHER INFORMATION CONTACT: Carole Hamilton, Area Manager, Lower Gila Resource Area, Phoenix District Office, 2015 West Deer Valley Road, Phoenix, Arizona 85027.

SUPPLEMENTARY INFORMATION: This occupancy and camping stay limit is being established to assist the Bureau of Land Management in reducing the incidence of unauthorized long-term occupancy, and provide consistency to visitors moving from one BLM district to another. Presently, California, Utah and New Mexico have 14 day camping limits in effect.

Of equal importance is the problem of resource allocation. Long term camping precludes equal opportunities for other members of the public to camp in the same area, creating user conflicts. This ruling is also designed to prevent excessive impacts to soil, vegetation and other resources caused by long-term camping.

Dated: October 30, 1989.

District Manager.

Sec. 36, NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$.

The area described aggregates approximately 360 acres in Montrose County. The purpose of this withdrawal is to segregate the land and provide for protection until requirements are completed for a

The temporary segregation of this land in connection with the application shall not affect the administrative jurisdiction over the land and will not authorize any use of the land by the Department of Energy.
